

COLLEGE DRIVE & E 8TH AVENUE SAFETY PROJECT

August 30, 2021

Meeting Norms

- Please stay muted until open public conversation
- Please:
 - Raise your hand and wait to be called
 - Allow others the opportunity to speak
 - Be respectful of other's thoughts and opinions
 - Put your contact information in the chat box
- Audio from this meeting is being recorded and will be posted

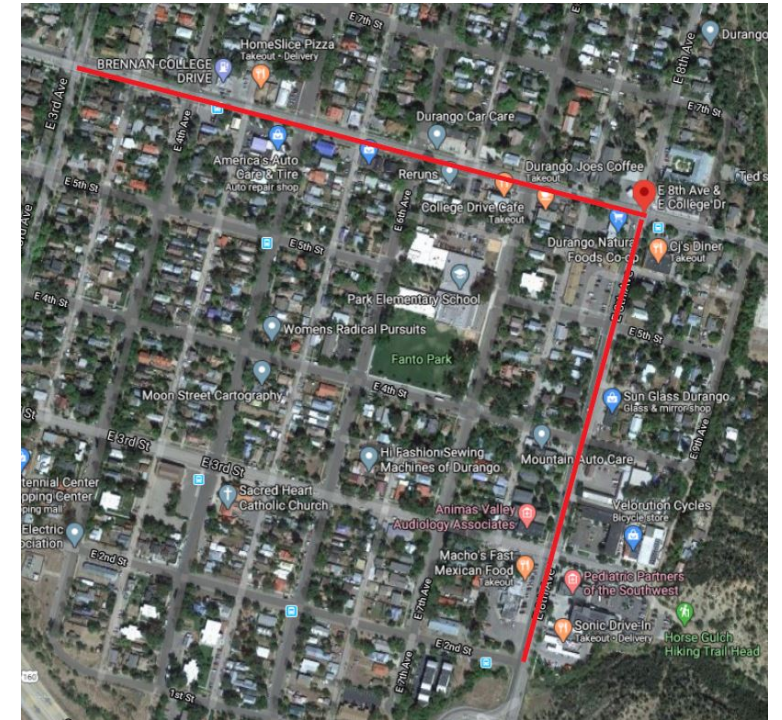

Project Background

- Project identified in the Multimodal Transportation Plan
- Project was prioritized by Multimodal Advisory Board in 2017
- 2 grants awarded totaling \$1,079,877 for safety improvements including transit, bicycle, and pedestrian facilities
- Traffic study conducted in 2016
- Design began in 2018
- Currently at 60% design

About the project

- College Dr from E 3rd Ave to E 8th Ave and E 8th Ave from College Dr to E 2nd St
- Purpose of project is to increase safety and accessibility for all road users
 - Reducing travel lanes from 4 to 3
 - Improving transit stops
 - Improving curb ramps and sidewalks
 - Improving crosswalks
 - Adding bicycle lanes with buffer

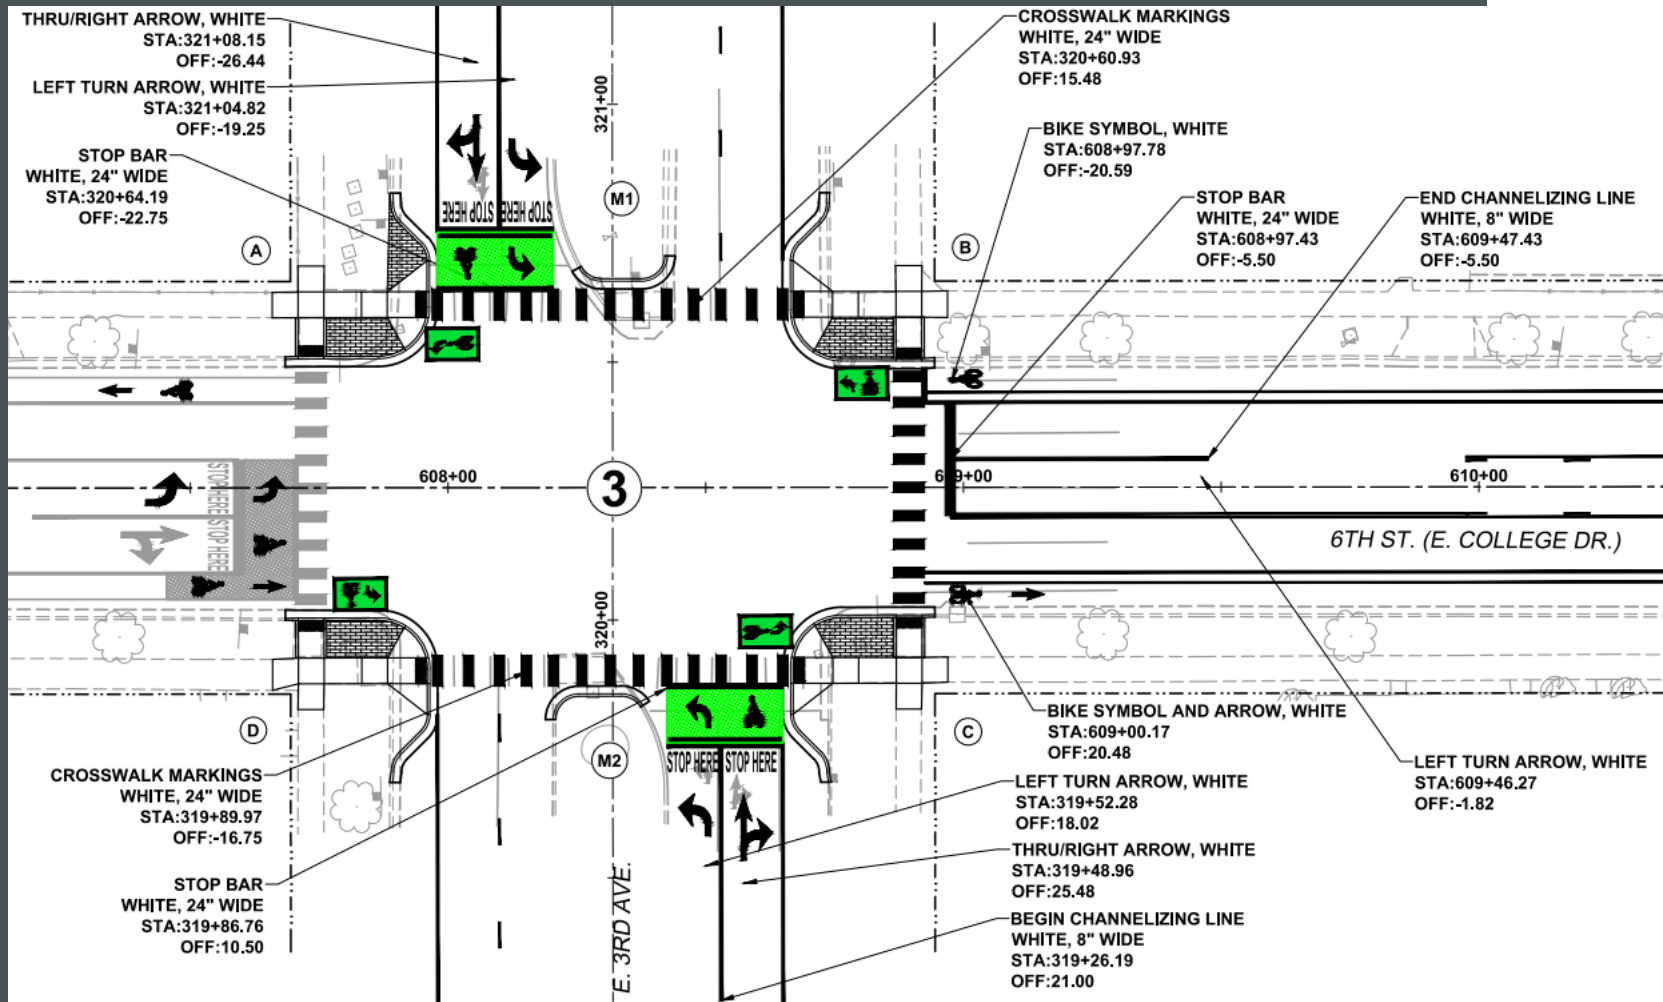

Benefits of project

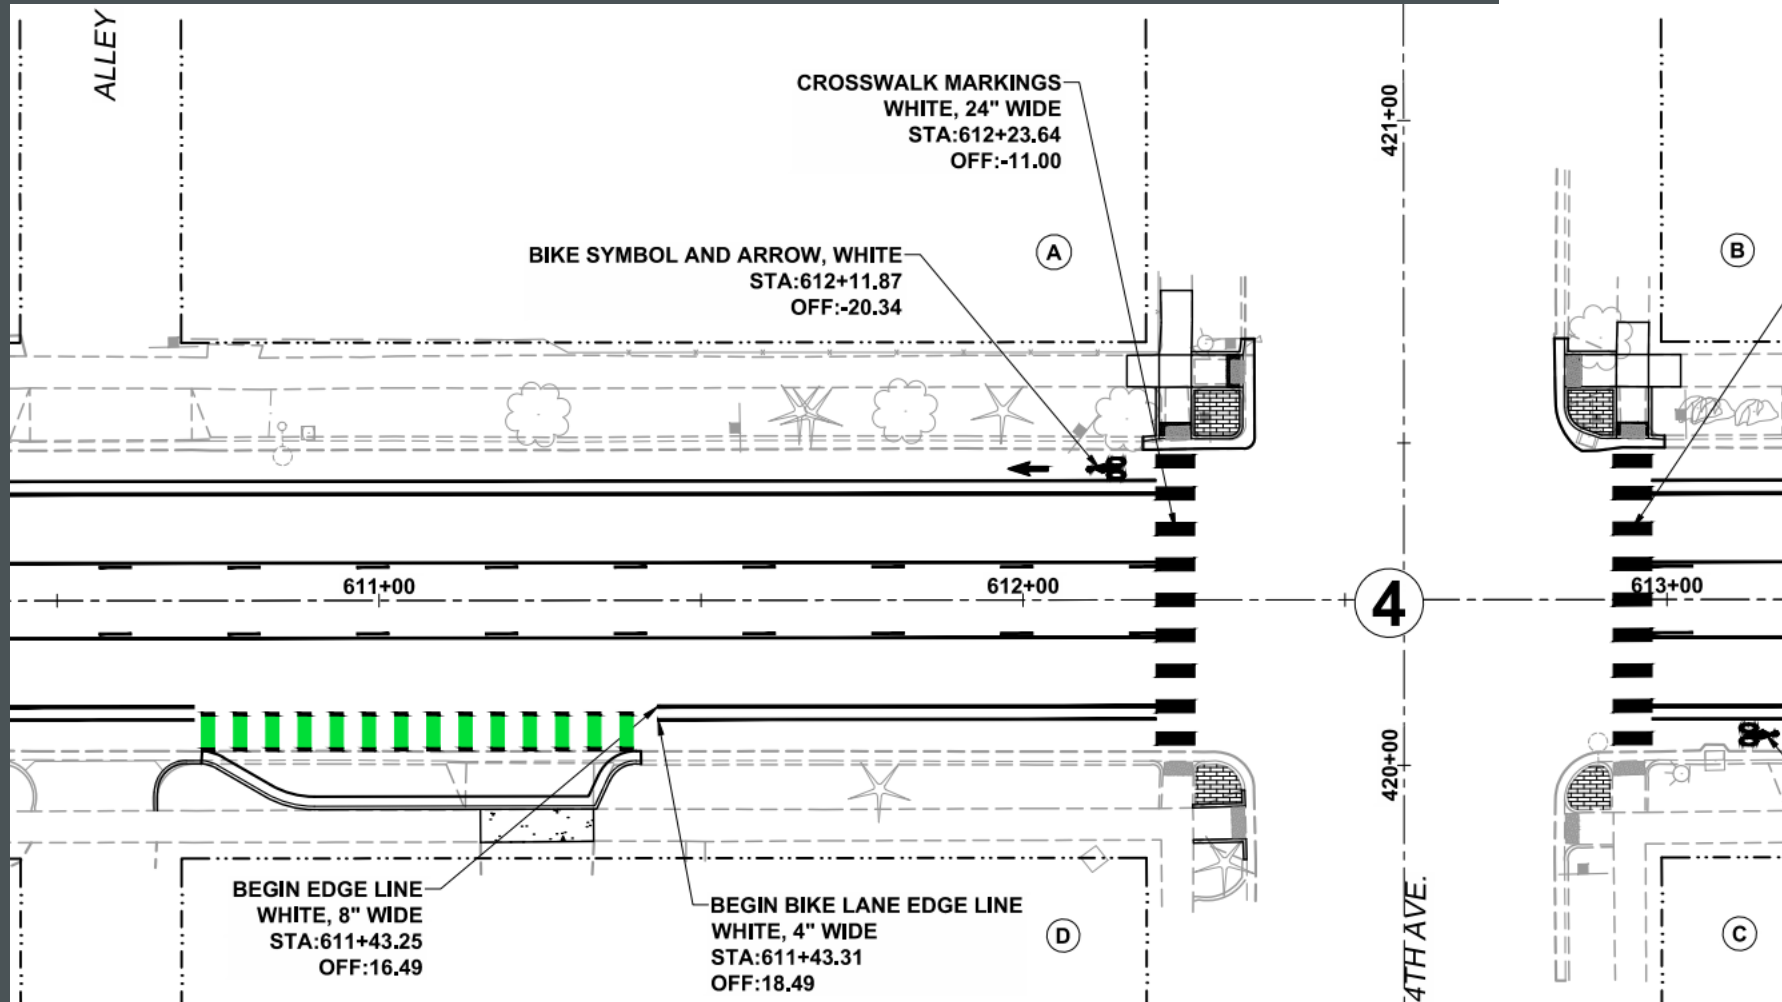

- Increased safety and accessibility:
 - Slower speeds
 - Reduced crashes – 24%
 - Fewer lanes for pedestrians to cross
 - ADA compliant curb ramps
 - Pull-outs for buses
 - Intersection improvements
 - Wider and buffered bike lanes

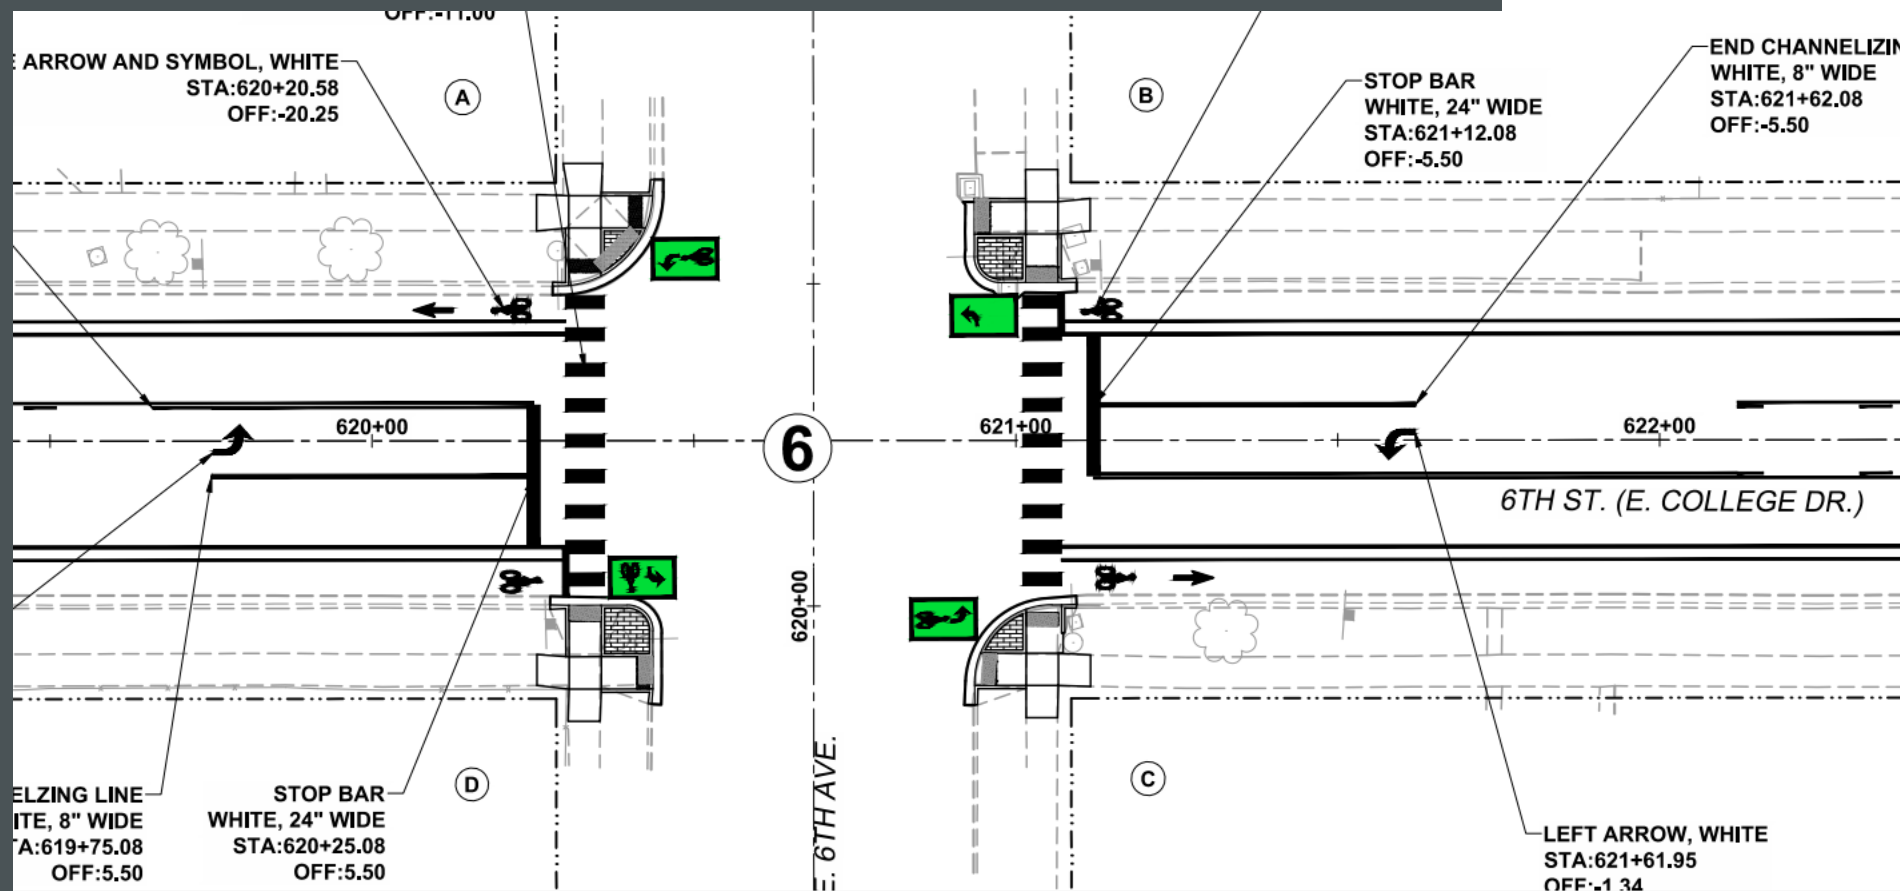

60% design plans – 3rd Ave

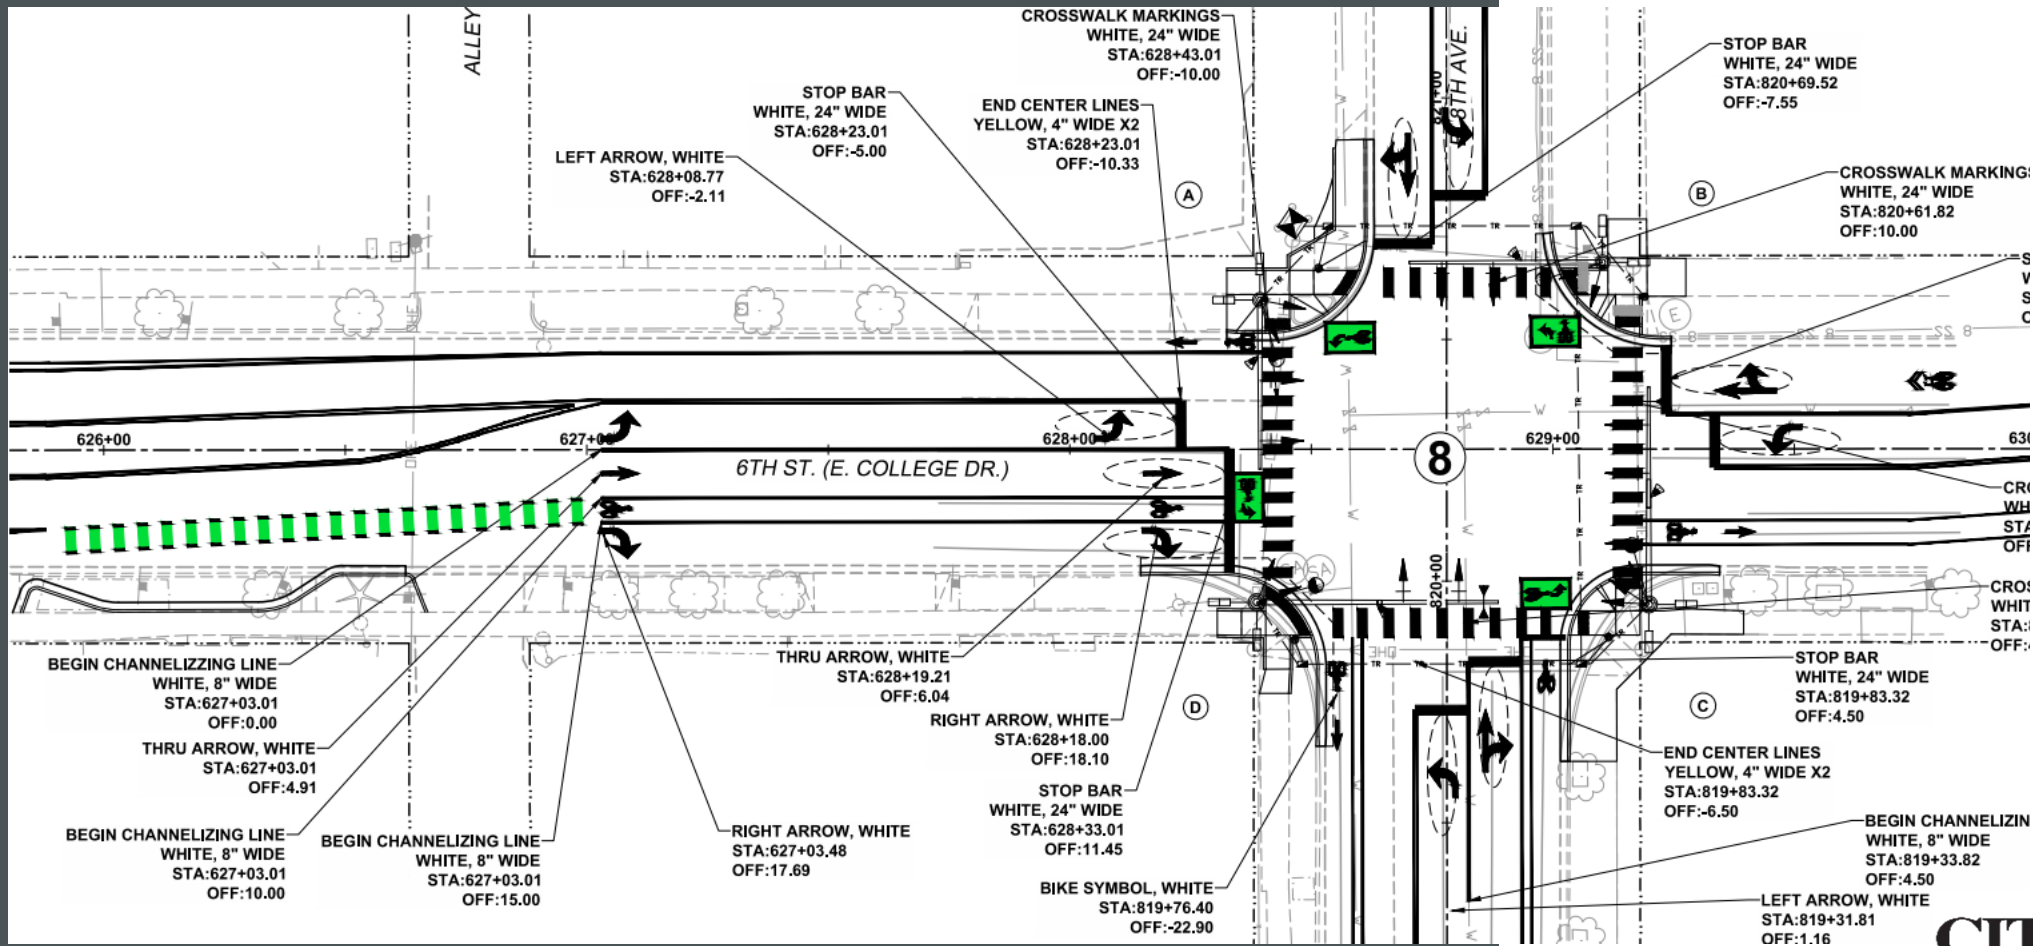

60% design plans – 4th Ave

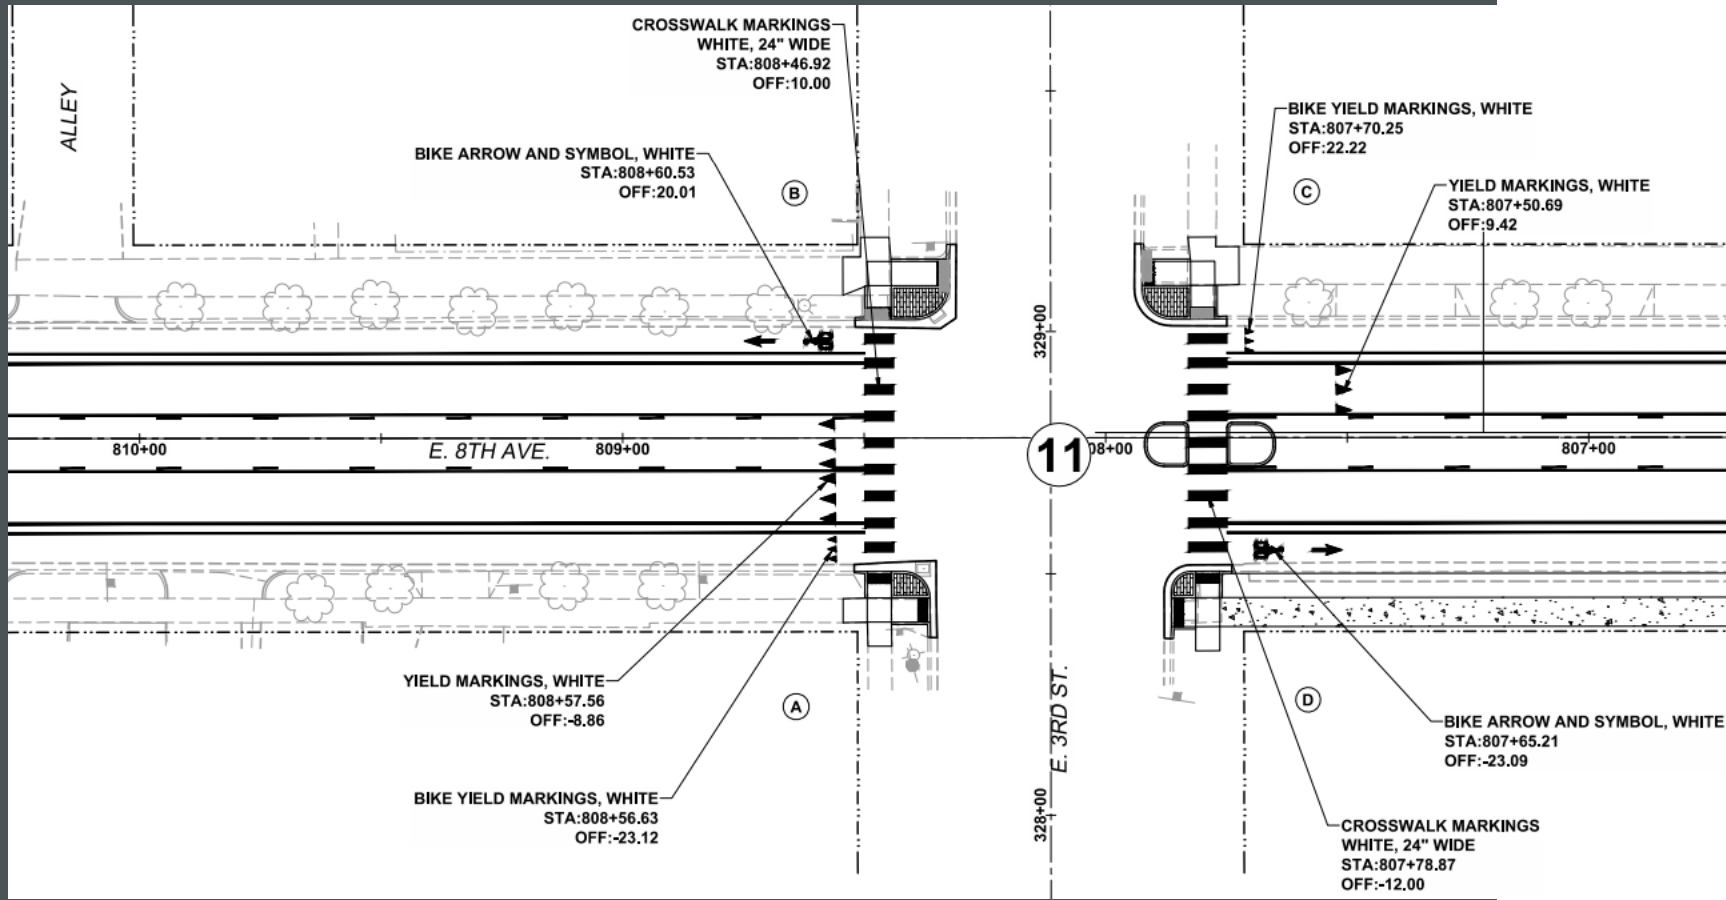

60% design plans – 6th Ave

60% design plans – 8th Ave

60% design plans – 3rd St

Next Steps

- Staff will review comments from this meeting and work with SEH to evaluate current design plans
- Design moves to 90%
- CDOT review
- Design plans finalized
- Bid for construction
- Anticipated construction in summer of 2022

Thank you!

- As a reminder:
 - Raise your hand and wait to be called
 - Allow others the opportunity to speak
 - Be respectful of other's thoughts and opinions
 - Put your contact information in the chat box
